~~SIZE DOES,~~ ~~DOESN'T, DOES,~~ ~~DOESN'T, DOES~~ MATTER

How big is big?
How much can she take?
How does yours measure up?
Does she prefer a bigger penis?

We have some answers.

Through the years we've received thousands of letters from both sexes about male penis size. The subject has been bantered about for centuries that most people don't know as much about penises as they should, and that includes you men who have one. We've tried to put our heads (the ones above our neck) together to see if we can answer any in ways that make sense.

1 How do you measure the length of a penis?

This is easily one of the most asked questions. Many men are anxious about their penis size. Either through self-deprecation, or hearing it from other men and/or women, they want their penis bigger. Besides perceived length, let's get down to some parameters that may or may not make you feel better. The organ begins just underneath where it meets the ball sack. If measured from there, it's often 1 inch longer than when measured from the top. Problem with that is that some men's ball sacks start part-way down the shaft. We feel that the technicality should be thrown out the window and the ruler placed at the base of the penis, on top! After all, it usually isn't something men will say they do, and if your woman wants to do it, tell her to put it in her mouth and measure how deep it goes in. Since the "average" size of a fully erect penis is usually around 5 to 6 inches; a large one would be 7 to 8 inches; while huge would be -- say -- up to 10 inches, and enormous is just about anything above that.

2 Is thickness more desirable than length?

Some women say yes, others will say no. Why? Because it depends on their vagina, not your penis. Granted, a thicker penis may seem like it "fills" the vagina, something longer may hit spots that a short thick one doesn't. In the end, we have to say this is a personal preference call for the woman.

3 Do large hands, feet or nose indicate a larger penis? What about a man's height?

As far as we know there is no direct physical correlation between a man's appendages or nose size or shape. However, a man's height may directly indicate a bigger penis.

But it's not because of height per se, it's because bigger men tend to have bigger parts. Hands and feet and organs are usually larger but directly proportionate as an average man's parts.

4

We've heard that the first four inches inside a woman's vagina are the most sensitive, so what's the big deal about length?

Many women say they prefer thickness to length, thusly "proving" the theorem. Unfortunately, we do not know their sexual history to know how long or how thick or thin their partner's were. On the other hand, deeper in the vagina are sensitive spots that a longer penis may stimulate, but again, it all seems to be relative and personal.

5

Does the height of a woman affect the size of a penis she can accommodate.

Yes, it does, or rather it should. There will be the exeption -- or should we say, the exeptional -- woman who is 5 foot and can easily take a ten or twelve inch cock. It may not go all the way in, down to the base, but may be as comfortable as a normal cock.

6

Is the curve of some erect penises normal?

Yes it is. In reality, very few men have a straight penis. There is usually a small upwards curve to it. Many women like that because it will hit or rub against the top of the vaginal wall for additional stimulation. If you think about it, in the missionary position, with the man thrusting in and out, the natural lifting of his hips creates a motion like pendulum and the curved penis' forward thrust and withdrawal makes for smooth entry. I straight penis tends to point downwards in this position.

7

Do men with bigger penises have more cum?

Actually, no. Cum, semen, is created in the combination prostate/testicle lineup. There could possibly be a more forceful ejaculation with a bigger penis because of the muscle structure. There is usually more semen ejaculated if the guy hasn't cum for a while.

8

Do women prefer men with a larger penis?

It's easy to say that they do. But, again, it's such a subjective preference that it's a difficult question to answer. What's missing in this discussion is how good does a man wield his organ. Is he good using it? Do his actions in bed satisfy her as much or even more than the size of the cock? If it's big and he's good using it, then it's easy to say she'll be satisfied. It is innately female to want a man who is both big and good with it. That could be part of our species natural selection process.

Let's talk for a minute about oral sex and the large penis. It seems normal to think that a large penis will be difficult to swallow, and it is. Outside of the licking and fondling, downing a large cock is a daunting process that often takes practice. We're not talking about oral technique to make the guy cum, just how big a dick can she fit in her mouth. Porn stars often make it look easy, because they've had a lot of practice on many different and different size cocks.

It takes perseverance to learn how to loosen those back-of-throat muscles and hold down that gagging reflex when a large cock enters the passageway. By no means was Linda Lovelace the first to deep throat. It was a changing of American morals at that time along with mass exposure by way of movies that deep-throating even became acceptable to watch.

Men, ladies, enjoy the cock you have, or will have.

When the party ended, he asked for my number and the very next day he called me asking if I wanted to come over and watch some football games. I politely declined, having made plans. But I told him that I'd see him the next day and he could come watch games with my friends. He accepted and when he came over, there were no friends of mine there. I apologized with a wink and we watched games all afternoon and screwed all night. What a way to start a new friendship!!!

Interview

Ash Hollywood

Blessed with a beautiful, tight natural body, great smile and bubbly personality, we met Ash at a Hollywood coffee shop. We instantly recognized her, even with clothes on, and asked if she would sit for an interview. Saying she would but not now. Could we come to her house in the Hollywood Hills at six tonight. We'll be there, we said!

Pornstar Interview

Ash Hollywood

For a Minnesota girl, you seem to have fit yourself right into this Hollywood lifestyle.

Well, I've been here for four years so I'm feeling more like a native now. I can get around pretty easily, although the San Fernando Valley is still a little difficult for me.

Did you come out here to do porn or did you start when you got here?

I came out here to do adult movies because I love sex and both men and women. Where I was made it a little difficult to express myself the way I wanted to.

Okay Ash, here it comes. What attracts you most about a man?

I like guys with personalities, big hearts, and big cocks. I know it sounds cheesy, but I do. I like

men who both respect and know how to please a woman. Plus, he has to have great smile and a know how to play a good game. He also needs to have plenty of swagger and be really good in the bedroom.

What's something that turns you on about a man?

I'm the type of girl who needs a lot of affection and I love a man who likes the same thing. I like it when a man kisses and touches me every chance he gets. It doesn't have to be sexual; just being comforting can go a long very long way with me.

And what turns you off?

Stinky breath turns me off much quicker than a light switch. If you can't get close to his face, how can you kiss and cuddle. I'm also

Pornstar Interview

Ash Hollywood

turned off by guys who talk and talk and talk. I talk a lot and he shouldn't talk more than me.

How do you get into the mood for sex?

Foreplay is the number one thing. You have to put some work into it. No wham, bam, thank you ma'am with me. It helps if you touch me everywhere – slowly. Now that gets my juices flowing.

On a scale of ten, how would you rate your sex drive?

My sex drive is really, really strong. I'm in my prime and I think about sex a lot and need to be constantly fucking! There were men I had to break up with because they couldn't keep up with me.

What's the hottest and wildest sex you've ever had?

It was two guys and me. We were in college and at a frat party. We all were pretty loose and went into the backyard by the swimming pool and got it on. It didn't last too long because we got discovered, but was it hot!

How many times have you made it with women?

I really don't keep score. Women are great lovers.

Do you consider yourself a bisexual?

Yes, I probably do. That's just how I am and I like it.

Is there anything special you do to please your man in bed?

I've been told that I'm really good at giving head. That's always been a huge turn-on for guys. My mouth is very active. I like to deep throat and I like to suck on their balls. It drives them crazy and they seem to get off better.

Are you a big fan of receiving oral sex?

I'm turned on by giving but I also love getting it. You have to show your man how to please you down there. Men like to rush things and I end up getting sore, but slow and easy will win my heart every single time.

What's your favorite position?

I like getting it from the back, doggie style. Men like to feel in control and this position lets them do it. Plus they like to play with my asshole at the same time.

What's your ultimate fantasy?

I think I've pretty much done it all!!!

valerie's anal passion

My butt's been primed. Contrary to what you guys must think, but not all men want to have anal sex. Which is what my husband thinks. Now I have to find someone who will fuck me in the ass. When I do, I'll get my booty hole prepped with an enema. Then I'll use my favorite vibe to be sure it's ready for cock.
